

ORNAMENTAL PANEL WITH AN ADHESIVE LAYER

ABSTRACT

5 An ornamental panel includes a primary plate, an adhesive layer
formed over a front side of the primary plate, a protecting film
detachably stuck on the adhesive layer, and a magnet plate attached to a
rear side of the primary plate; the adhesive layer has such a stickiness
that a piece of paper can be stuck thereon, and detached from it without
10 causing any damage to itself or the adhesive layer; the panel can be
attached to a refrigerator or a steel cupboard at the magnet plate thereof
for holding notes, posters, drawings etc. in position with the adhesive
layer thereof.
